Equifax Data Breach:

The Equifax data breach will affect millions of consumers and Wisconsin's banking industry stands ready to assist their customers. It is the banks in Wisconsin and across the nation that shield their customers from the financial harm caused by data breaches. It is as simple as this: when a breach occurs, banks often bear the brunt of the costs so their customers won't have to.

"Have I been compromised?" is the biggest question on consumers' minds. The Wisconsin Bankers Association offers tips for consumers who are not sure if their information has been comprised. This information is available on our Farmers Savings Bank website [www.farmerssavings.com](http://www.farmerssavings.com) or copies of the information are available from any of our locations.
